Email: [Email](#) || LinkedIn: [LinkedIn](#) || Portfolio: [Portfolio](#)

SUMMARY

Aspiring Java Full Stack Developer with strong technical knowledge in both front-end and back-end development. Currently working on a full stack project using Java, Spring Boot, React, and MySQL, demonstrating hands-on experience in building dynamic web applications and RESTful APIs. Proficient in core Java, HTML, CSS, JavaScript, and database integration.

EDUCATION

Bachelor of Computer Applications (BCA)

Bharathiar University, Tamil Nadu

2021-2024

SKILL SUMMARY

- **Front-End:** HTML, CSS, JavaScript
- **Back-End :** Java, Spring Boot, Hibernate, RESTful APIs
- **Frameworks:** Spring Framework, Hibernate ORM
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub, Eclipse, Visual Studio Code, Postman

CERTIFICATIONS/TRAININGS

Java Full Stack Development Course

Tap Academy- April 2025

Project Title: Online Food Delivery System (Java Full Stack)

Project Description:

An online food delivery system developed using Java Full Stack technologies. It allows users to browse restaurants, place food orders, and track deliveries. The application includes secure login, restaurant management, and an admin dashboard, ensuring a smooth and efficient ordering experience. Secure authentication for customers, restaurants, and admins.

WORK EXPERIENCE (INTERNSHIP)

Company: Nxtlogic Software Solutions

Description:

Developed a machine learning model to detect glaucoma from eye images using Python and Convolutional Neural Networks (CNN). The model was trained and evaluated on a Kaggle dataset containing labeled retinal images. Preprocessing techniques like resizing, normalization, and data augmentation were applied to improve model performance.

CERTIFICATES

Java Development on Oracle
